16          “(2) In carrying out paragraph (1)(B)(ii), a formal  
17     evaluation under subsection (a) shall include reviewing all

1       *association is at least as likely as not, but not suffi-*  
2       *cient to conclude that a positive association exists.*

3               “(C) *The ‘below equipoise’ category, where the*  
4       *evidence is not sufficient to conclude that a positive*  
5       *association is at least as likely as not, or is not suffi-*  
6       *cient to make a scientifically informed judgment.*

7               “(D) *The ‘against’ category, where the evidence*  
8       *suggests the lack of a positive association.*

22       *a recommendation to establish or modify a presumption of*  
23       *service connection under section 1173 of this title—*

1           “(1) if the Secretary determines, in the discre-  
2           tion of the Secretary, that the presumption, or modi-  
3           fication, is warranted, the Secretary shall—

4                   “(A) commence issuing regulations in ac-  
5                   cordance with the provisions of subchapter II of  
6                   chapter 5 of title 5 (commonly referred to as the

11                   frame during which a health effect must become  
12                   manifest; or

13           “(2) if the Secretary determines, in the discre-  
14           tion of the Secretary, that the presumption, or modi-  
15           fication, is not warranted, the Secretary shall publish  
16           in the Federal Register a notice of the determination,  
17           including the reasons supporting the determination.

18           “(b) REMOVAL OF PRESUMPTION.—(1)(A) The Sec-

6       “(B) Under subparagraph (A)(ii), the Secretary shall  
7       not consider the lack of evidence as sufficient to support  
8       a decision for removal of a presumption.

9       “(2) Whenever an illness is removed from regulations  
10       pursuant to paragraph (1), or the periods and locations of  
11       exposure covered by a presumption of service connection are
