1 Plaintiff Glenn Liou, on behalf of himself, all others similarly situated, and the
2 general public, by and through his undersigned counsel, hereby sues Defendant Your
3 Signature Supplements, LLC (“Defendant” or “YSS”) and upon information and belief and
4 investigation of counsel, alleges as follows:

5 **I. JURISDICTION AND VENUE**

6 1. Jurisdiction is proper because Defendant is a citizen of California and because
7 all claims are asserted under the laws of California and relate to a product that is sold by
8 Defendant in California.

9 2. Venue is proper under Bus. & Prof. Code § 17203 because YSS conducts
10 continuous business in this District and sold hundreds of the products at issue in this
11 District, and because hundreds of class members, reside in this District and were harmed
12 by the conduct of Defendant in this District.

13 **II. NATURE OF THE ACTION**

14 3. YSS manufactures, markets, and distributes a suite of nutritional supplements,
15 including a “supplement” called Dementia/Alzheimer’s Support (“DAS”).

16 4. YSS markets DAS as product which can purportedly improve cognitive
17 function, reduce symptoms of memory loss, prevent neural damage, and reduce the risk of
18 Alzheimer’s disease and dementia.

19 5. YSS markets DAS as a product capable of providing benefits akin to those
20 which prescription drugs would provide.

21 6. These claims are contrary to those allowed by the Food, Drug, and Cosmetic
22 Act, 21 U.S.C. § 301 *et seq.* (“FDCA”), and subject any individual manufacturing or selling
23 DAS to liability for the sale of an unapproved new drug.

24 7. Defendant’s representations mislead consumers into believing that DAS is safe
25 and effective for its intended purposes.

26 8. Plaintiff Glenn Liou purchased and used DAS in reliance upon these claims,
27 and with the belief that the product was sold in compliance with state and federal
28 regulations.

1 9. Mr. Liou used DAS as directed, but the product failed to deliver the advertised
2 benefits, nor any results at all.

3 10. YSS promotes DAS as capable of providing benefits akin to those prescription
4 drugs would provide, when in truth, DAS cannot deliver the advertised benefits.

5 11. This action is brought to remedy Defendant's unfair and unlawful conduct. On
6 behalf of the class defined herein, Plaintiff seeks an order compelling YSS to, *inter alia*:
7 (1) cease marketing and selling DAS as an illegal unapproved new drug; (2) conduct a
8 corrective advertising campaign; (3) destroy all unlawful marketing materials and
9 products; (4) award Plaintiff and the Class members restitution; and (5) pay costs,
10 expenses, and attorney fees.

11 **III. PARTIES**

12 12. Defendants Your Signature Supplements, LLC is a Florida corporation with
13 its principal place of business in San Clemente, CA.

14 13. During the class period, YSS owned, manufactured, distributed, and sold a
15 suite of unapproved drugs, including Dementia/Alzheimer's Support ("DAS").

16 14. YSS sold DAS throughout California and the United States during the Class
17 Period defined herein.

18 15. Plaintiff Glenn Liou is a citizen of New Jersey who purchased DAS during
19 the class period for personal consumption.

20 **IV. REGULATORY BACKGROUND**

21 16. The

22 Dietary Supplement Health and Education Act (DSHEA) of 1994, which
23 amended the Federal Food, Drug, and Cosmetic Act, transformed FDA's
24 authority to regulate dietary supplements. Under DSHEA, FDA is not
25 authorized to approve dietary supplements for safety and effectiveness
26 before they are marketed. In fact, in many cases, firms can lawfully
27 introduce dietary supplements to the market without even notifying FDA.
28 Since DSHEA was enacted, the dietary supplement market has grown
significantly. For example, the number of products has expanded nearly

1 twenty times since 1994.¹

2 17. In a press release issued on February 11, 2019, the FDA stated:

3 The U.S. Food and Drug Administration today posted 12 warning letters .
4 . . . and 5 online advisory letters . . . issued to foreign and domestic
5 companies that are illegally selling more than 58 products, many that are
6 sold as dietary supplements, which are unapproved new drugs and/or
7 misbranded drugs that claim to prevent, treat or cure Alzheimer’s disease
8 and a number of other serious diseases and health conditions. These
9 products, which are often sold on websites and social media platforms,
10 have not been reviewed by the FDA and are not proven safe and effective
11 to treat the diseases and health conditions they claim to treat. These
12 products may be ineffective, unsafe and could prevent a person from
13 seeking an appropriate diagnosis and treatment.²

14 18. In the same press release, FDA Commissioner Scott Gottlieb, M.D. noted that:

15 “Science and evidence are the cornerstone of the FDA’s review process
16 and are imperative to demonstrating medical benefit, especially when a
17 product is marketed to treat serious and complex diseases like Alzheimer’s.
18 **Alzheimer’s is a challenging disease that, unfortunately, has no cure.**
19 **Any products making unproven drug claims could mislead consumers**
20 **to believe that such therapies exist and keep them from accessing**
21 **therapies that are known to help support the symptoms of the disease,**
22 **or worse as some fraudulent treatments can cause serious or even fatal**
23 **injuries.** Simply put, health fraud scams prey on vulnerable populations,
24 waste money and often delay proper medical care – and we will continue
25 to take action to protect patients and caregivers from misleading, unproven
26 products.”

27 *Id.* (emphasis added).

28 ¹ U.S. Food & Drug Admin., Information for Consumers on Using Dietary Supplements
(October 21, 2022), available at <https://www.fda.gov/food/dietary-supplements/information-consumers-using-dietary-supplements>.

² U.S. Food & Drug Admin., FDA Takes Action Against 17 Companies for Illegally Selling Products Claiming to Treat Alzheimer’s Diseases (February 11, 2019), available at <https://www.fda.gov/news-events/press-announcements/fda-takes-action-against-17-companies-illegally-selling-products-claiming-treat-alzheimers-disease>.

1 19. “The term ‘drug’ means . . . (B) articles intended for use in the diagnosis, cure,
2 mitigation, treatment, or prevention of disease in man or other animals; and (C) articles
3 (other than food) intended to affect the structure or any function of the body of man or
4 other animals.” 21 U.S.C. § 321(g)(1).

5 20. A “new drug” is any drug “not generally recognized, among experts qualified
6 by scientific training and experience to evaluate the safety and effectiveness of drugs, as
7 safe and effective for use under the condition prescribed, recommended, or suggested in
8 the labeling thereof . . .” 21 U.S.C. § 321(p)(1).

9 21. Pursuant to 21 U.S.C § 355(a), “No person shall introduce or deliver for
10 introduction into interstate commerce any new drug . . .” without approval by the FDA.

11 22. Further, 21 U.S.C. § 331(a) prohibits the “introduction or delivery for
12 introduction into interstate commerce of any food, drug, device, tobacco product, or
13 cosmetic that is adulterated or misbranded.”

14 23. Pursuant to 21 U.S.C. § 352(f), drugs are required to have adequate
15 instructions for safe use.

16 **V. THE SALE OF UNAPPROVED DRUGS POSES A GRAVE DANGER TO**
17 **PUBLIC HEALTH.**

18 24. “Unapproved prescription drugs pose significant risks to patients because they
19 have not been reviewed by FDA for safety, effectiveness or quality.”³

20 25. “Without FDA review, there is no way to know if these drugs are safe and
21 effective for their intended use, whether they are manufactured in a way that ensures
22 consistent drug quality or whether their label is complete and accurate.” *Id.*

23 26. “Unapproved drugs have resulted in patient harm, and the [FDA] works to
24 protect patients from the risks posed by these drugs.” *Id.*

25
26
27
28 ³ U.S. Food & Drug Admin., Unapproved Drugs (June 2, 2021), available at
<https://www.fda.gov/drugs/enforcement-activities-fda/unapproved-drugs>.

1 27. Further, unapproved drugs lack “labels and prescribing information that has”
2 “been reviewed by FDA for accuracy and completeness.”⁴

3 28. Consumers using unapproved drugs also run the risk of “unexpected and
4 undocumented safety concerns due to lack of rigorous pre- and postmarket safety
5 surveillance.” *Id.*

6 29. Additionally, unapproved drugs lead consumers in need of medical treatment
7 to forego medically proven therapies.

8 **VI. YSS MARKETS DAS WITH DECEPTIVE AND UNLAWFUL EFFICACY**
9 **CLAIMS.**

10 30. Defendant YSS markets DAS with claims which suggest that the product can
11 affect the structure or function of the human body and cure, mitigate, or treat disease.

12 31. These claims render the product a “drug.”

13 32. However, Defendant failed to obtain FDA approval to market and distribute
14 DAS in violation 21 U.S.C. § 355.

15 33. During the Class Period, Defendant manufactured, marketed, distributed, and
16 sold Dementia/Alzheimer’s Support (“DAS”) in packaging bearing claims which suggest
17 the product can mitigate, cure, or treat dementia, Alzheimer’s disease, and cognitive
18 decline and which can affect the structure and function of the human body by preventing
19 neuronal damage.

20 34. Specifically, the DAS label claims the product is a “synergistic blend of
21 clinically studied herbs” which “combines neurotransmitter precursors, helps get oxygen
22 to the brain, improves cognitive function, nourishes the brain and contains several
23 cholinesterase inhibitors” and that the “blends contain several herbs that inhibit the enzyme
24 that breaks down acetylcholine.” Defendants further claim that DAS improves “memory,
25 mood, mental clarity & concentration.”

1 35. Further, during the class period YSS advertised DAS with claims that suggest
2 the product can provide benefits akin to those of a prescription drug.

3 36. The DAS label and Defendant’s website contained the following claims, which
4 show the product is intended to affect the structure and function of the body, and to cure,
5 mitigate, treat, or prevent disease, during the Class Period:

- 6 • “Dementia/Alzheimer’s Support”
- 7 • “Supports Memory, Mood, Mental Clarity & Concentration”
- 8 • “This synergistic blends of clinically studied herbs combines neurotransmitter
9 precursors, helps get oxygen to the brain, improves cognitive function, nourishes the
10 brain and contains several cholinesterase inhibitors.”
- 11 • “Brain Boost IQ”
- 12 • “Brain Health”
- 13 • “Focus Advantage”
- 14 • “shown to reduce symptoms of memory loss” as “well as prevent neuronal damage
15 caused by amyloid-beta plaques, which accumulate in the brain during Alzheimer’s
16 disease.”

17 37. These claims suggest that DAS can decrease memory loss, improve cognitive
18 function and concentration, and prevent dementia and Alzheimer’s disease. Further, the
19 claims render DAS a “drug” within the meaning of 21 U.S.C. § 321(g)(1)

20 38. A true and correct copy of the Dementia/Alzheimer’s Support page from
21 Defendant’s website is attached hereto as **Exhibit 1**.

22 39. The FDA maintains a database of drugs which it has approved at
23 <https://www.accessdata.fda.gov/scripts/cder/daf/index.cfm>.

24 40. Attached hereto as **Exhibit 2** are search results from this FDA database,
25 showing that the search term “Dementia/Alzheimer’s Support” “did not return any results.”

26 41. Thus, YSS failed to obtain FDA approval prior to marketing, distributing, and
27 selling DAS.

28 **VII. DAS IS AN UNAPPROVED DRUGS.**

42. The term ‘drug’ means . . . (B) articles intended for use in the diagnosis, cure,
mitigation, treatment, or prevention of disease in man or other animals; and (C) articles

1 (other than food) intended to affect the structure or any function of the body of man or other
2 animals.” 21 U.S.C. § 321(g)(1).

3 43. Here, DAS is an unapproved “drug” for regulatory purposes because it is
4 advertised as a product which will cure, mitigate, treat, or prevent disease such as dementia
5 and Alzheimer’s disease and which will affect the structure or function of the body by
6 preventing neuronal damage, inhibiting cholinesterase, decreasing memory loss, and
7 improving cognitive function and concentration.

8 44. The claims on the packaging and website of DAS render it an unapproved new
9 drug.

10 45. The FDA has determined that the following claims, which are similar to those
11 Defendant makes regarding DAS, constitute “drug claims”:

- 12 • “Rich in medicinal properties, Lion’s Mane mushrooms are thought to guard against
13 dementia” (**Exhibit 3**, FDA Warning Letter to Lone Star Botanicals);
- 14 • “eliminate dementia and Alzheimer’s disease” (**Exhibit 4**, FDA Warning Letter to
15 Hekma Center, LLC);
- 16 • “Lion’s Mane May Be Effective in Combating Dementia/Alzheimer’s Disease”
17 (**Exhibit 5**, FDA Warning Letter to Brilliant Enterprises, LLC)
- 18 • “Reduces Risk for Dementia/Alzheimer’s” (**Exhibit 6**, FDA Warning Letter to
19 Spartan Enterprises, Inc.);
- 20 • “6 grams (2 tsp or 12 capsules) per day if you have memory issues or DEMENTIA”
21 (**Exhibit 6**);
- 22 • “Magnesium repairs the damaged synapses of the brain” (**Exhibit 6**)
- 23 • “Decreases the Onset Of Memory Loss” (**Exhibit 6**);
- 24 • “Repairs Damaged Synapses” (**Exhibit 6**);
- 25 • “Reduces Symptoms of Psychiatric Disorders and Dementia” (**Exhibit 7**, FDA
26 Warning to Moorish Science Temple)
- 27 • “Improves memory and mood in Alzheimer’s patients” (**Exhibit 7**)
- 28 • “Ginko Biloba has been repeatedly evaluated for its ability to reduce anxiety, stress
and other symptoms associated with Alzheimer’s disease” (**Exhibit 7**)

46. A “new drug” is any drug “not generally recognized, among experts qualified
by scientific training and experience to evaluate the safety and effectiveness of drugs, as

1 safe and effective for use under the condition prescribed, recommended, or suggested in the
2 labeling thereof” 21 U.S.C. § 321(p)(1). Here, DAS is a “new drug” within the meaning
3 of the FDCA because it is not generally recognized as safe and effective for its intended
4 use. *See* Title 21 of the Code of Federal Regulations, Chapter I, Subchapter D; 21 C.F.R. §
5 330.1.

6 47. “No person shall introduce or deliver for introduction into interstate commerce
7 any new drug” without approval by the FDA. 21 U.S.C § 355(a); *see also* 21 U.S.C. §
8 331(d).

9 48. Defendant has not received approval from the FDA to sell DAS.

10 49. The sale of unapproved new drugs is illegal and dangerous. First, consumers
11 risk purchasing and using a product that will endanger their health. Second, consumers risk
12 purchasing a product that will not effectively treat their condition, forgoing actual treatment
13 of that condition in lieu of an unapproved new drug which may not treat their condition.
14 The FDA’s regulatory regimen helps ensure that such products are kept away from
15 consumers.

16 50. Defendant’s failure to comply with these regulations puts consumers at risk
17 and gives Defendant an unfair advantage over competitors that do commit the time and
18 expense of complying with such necessary regulations.

19 51. DAS does not qualify for the reduced level of regulation applicable to certain
20 nutrition supplement products for several reasons. The challenged marketing materials
21 neither describe the role of any nutrient or dietary ingredient intended to affect the structure
22 or function in humans, characterize the documented mechanism by which any nutrient or
23 dietary ingredient acts to maintain such structure or function, nor describe general well-
24 being from consumption of any nutrient or dietary ingredient. 21 U.S.C. § 343(r)(6)(A).

25 52. California similarly prohibits the sale of unapproved new drugs. Cal. Health &
26 Saf. Code § 111550.

1 **VIII. DEFENDANT’S ADVERTISING FOR DAS IS FALSE AND MISLEADING,**
2 **RENDERING THE PRODUCTS MISBRANDED.**

3 53. It is unlawful to manufacture or sell any drug that is misbranded. 21 U.S.C. §
4 331(a), (b), (c), & (g).

5 54. A drug is misbranded “[i]f its labeling is false or misleading in any particular.”⁵
6 21 U.S.C. § 352(a)(1).

7 If an article is alleged to be misbranded because the labeling or advertising is
8 misleading, then in determining whether the labeling or advertising is misleading
9 there shall be taken into account (among other things) not only representations made
10 or suggested by statement, word, design, device, or any combination thereof, but
11 also the extent to which the labeling or advertising fails to reveal facts material in
12 the light of such representations or material with respect to consequences which may
13 result from the use of the articles to which the labeling or advertising relates under
14 the conditions of use prescribed in the labeling or advertising thereof or under such
15 conditions of use as are customary or usual.

16 21 U.S.C.S. § 321(n).

17 55. Defendant’s deceptive efficacy representations regarding DAS described
18 herein render the product misbranded pursuant to Cal. Health & Saf. Code § 110100
19 (adopting all FDA labeling regulations as state regulations), § 110398 (“It is unlawful for
20 any person to advertise any food, drug, device, or cosmetic that is adulterated or
21 misbranded.”), § 111330 (drug label misbranded if false or misleading in any particular),
22 and further violate Cal. Bus. & Prof. Code § 17200 (Unfair Competition Law “Fraudulent”
23 Prong) § 17500 (False Advertising Law) and Cal. Civ. Code § 1750 (CLRA).

24 56. Because DAS claims to treat conditions not amenable to self-diagnosis,
25 directions are not and likely cannot be written such that a layperson can safely use this
26 product to treat those conditions. The label of DAS therefore lacks “adequate directions for

27 ⁵ Under the FDCA, “‘labeling’ means all labels and other written, printed, or graphic
28 matters (1) upon any article or any of its containers or wrappers, or (2) accompanying such
article.” 21 U.S.C. § 321(m). This includes websites associated with the products.” See
Sandoval v. Pharmicare US, Inc., 730 Fed. App’x 417, 420 (9th Cir. 2018).

1 use,” rendering the product misbranded. 21 U.S.C. § 352(f)(1); *see also* 21 C.F.R. § 201.5
2 (“‘Adequate directions for use’ means directions under which the layman can use a drug
3 safely and for the purposes for which it is intended.”).

4 57. Plaintiff used DAS, as directed, but it failed to deliver the advertised benefits.

5 **IX. DEFENDANT’S PRACTICES WERE “UNFAIR” WITHIN THE MEANING**
6 **OF THE CALIFORNIA UNFAIR COMPETITION LAW.**

7 58. Defendant’s practices as described herein are “unfair” within the meaning of
8 the California Unfair Competition Law because YSS’s conduct is immoral, unethical,
9 unscrupulous, and substantially injurious to consumers, and the utility of this conduct to
10 Defendant does not outweigh the gravity of the harm to Defendant’s victims.

11 59. In particular, while Defendant’s marketing of DAS with “drug” claims as
12 defined by 21 U.S.C. § 321(g) and absent FDA approval to do so allowed YSS to realize
13 higher profit margins than if it did not use unlawful marketing tactics, this utility is small
14 and far outweighed by the gravity of the economic harm and potential physical harm
15 Defendant inflicts upon consumers. Further, the injury to consumers from Defendant’s
16 practices is substantial, not outweighed by benefits to consumers or competition, and not
17 an injury that consumers themselves could reasonably have avoided.

18 **X. DEFENDANT’S PRACTICES WERE “UNLAWFUL” WITHIN THE**
19 **MEANING OF THE CALIFORNIA UNFAIR COMPETITION LAW.**

20 60. Defendant’s practices as described herein are “unlawful” within the meaning
21 of the California Unfair Competition Law because the marketing, sale, and distribution of
22 DAS violates the Federal Food, Drug, and Cosmetic Act, as well as California’s Sherman
23 Food, Drug, and Cosmetic Law.

24 61. Defendant’s conduct described herein is “unlawful” because it violated the
25 following portions of the Federal Food, Drug, and Cosmetic Act (“FDCA”):

- 26 • **21 U.S.C. § 331(a)**, prohibiting the “introduction or delivery for introduction into
27 interstate commerce of any food, drug, device, tobacco product, or cosmetic that is
28 adulterated or misbranded”;

- 1 • **21 U.S.C. § 331(b)**, prohibiting the “adulteration or misbranding of any food, drug,
2 device, tobacco product, or cosmetic in interstate commerce”;
- 3 • **21 U.S.C. § 352(f)(1)**, requiring drugs to have adequate directions for use
- 4 • **21 U.S.C. § 355(a)**, prohibiting the sale of unapproved new drugs.

5 62. Defendant’s conduct described herein also violates multiple provisions of
6 California law including, *inter alia*:

- 7 • **Cal. Health & Saf. Code § 110100 et seq.**, which adopts all FDA labeling regulations
8 as state regulations;
- 9 • **Cal. Health & Saf. Code § 111330**, “Any drug or device is misbranded if its labeling
10 is false or misleading in any particular.”;
- 11 • **Cal. Health & Saf. Code § 110398**, “It is unlawful for any person to advertise any
12 food, drug, device, or cosmetic that is adulterated or misbranded.”;
- 13 • **Cal. Health & Saf. Code § 111440**, “It is unlawful for any person to manufacture,
14 sell, deliver, hold, or offer for sale any drug or device that is misbranded.”;
- 15 • **Cal. Health & Saf. Code § 111445**, “It is unlawful for any person to misbrand any
16 drug or device.”;
- 17 • **Cal. Health & Saf. Code § 111450**, “It is unlawful for any person to receive in
18 commerce any drug or device that is misbranded or to deliver or proffer for delivery
19 any drug or device.”;
- 20 • **Cal. Health & Saf. Code § 111550**, prohibiting sale of new drug unless approved
21 under 21 U.S.C. § 355.

22 63. YSS’s unlawful marketing and advertising of DAS constitute violations of the
23 FDCA and the Sherman Law and, as such, violated the “unlawful” prong of the UCL.

24 64. Defendant’s unlawful acts allowed it to sell more units of DAS, than it would
25 have otherwise, and at a higher price and higher margin.

26 65. In accordance with Cal. Bus. & Prof. Code § 17203, Plaintiff seeks an order
27 enjoining Defendant from continuing to conduct business through unlawful, unfair, and/or
28 fraudulent acts and practices and to commence a corrective advertising campaign.

66. Plaintiff also seeks an order for the disgorgement and restitution of all revenue
received by Defendants from the sale of DAS.

1 76. Plaintiff is a reasonably diligent consumer who exercised reasonable diligence
2 in his purchase, use, and consumption of DAS. Nevertheless, he would not have been able
3 to discover Defendant's unfair and unlawful practices and lacked the means to discover
4 them given that, like nearly all consumers, he is not an expert on FDA regulations or
5 California law pertaining to the marketing of drugs.

6 **XIII. ADDITIONAL TOLLING ALLEGATIONS**

7 77. At all relevant times, YSS was aware that its marketing of DAS violated FDA
8 regulations and California law.

9 78. As a supplement producer and distributor, Defendant had a continuing and
10 affirmative moral and legal obligation to refrain from marketing and selling supplements
11 with claims that violate FDA regulations and California law.

12 79. Class members had no duty and no reason to inquire as to whether DAS was
13 marketed in violation of state and federal law. California, as a matter of economic
14 regulation, places the burden of ensuring that supplements are safe, effective, and sold in
15 compliance with FDA regulations and California law, on their manufacturers, not the
16 general public.

17 80. Reasonable consumers, including Plaintiff, had no reason to suspect YSS's
18 unfair competition and violations of federal and state law prohibiting the sale of unapproved
19 and misbranded drugs.

20 81. YSS owed a special duty to Plaintiff and all Class Members, akin to a fiduciary
21 duty, which it violated by marketing DAS with claims that suggest the product can affect
22 the structure or function of the human body or can treat, mitigate, or cure disease without
23 obtaining FDA approval to do so. During the entire Class Period, YSS was aware that its
24 conduct was oppressive and cruel, causing economic injury and discouraging consumers
25 from seeking medically proven treatments, yet consciously continued these acts for years
26 while knowing the extent of the harm it was causing. Equity and the public policy of
27 California, embodied in its statutes, jointly demand, in such circumstance, that laches and
28 tolling cannot apply in such a way to permit Defendant to continue to enjoy the fruits of its

1 intentional, cruel, oppressive, and unlawful acts.

2 **XIV. CLASS ACTION ALLEGATIONS**

3 82. Plaintiff brings this action on behalf of himself, and all others similarly
4 situated (the “Class”), excluding Defendant’s officers, directors, and employees, and the
5 Court, its officers and their families. The Class is defined as:

6 All individuals who purchased Dementia/Alzheimer’s Support in the
7 United States for their own personal or household use, and not for resale,
8 from January 1, 2015 to the present.

9 83. Questions of law and fact common to Plaintiff and the Class include:

- 10 a. Whether Defendant’s conduct constituted a violation of the unfair prong
11 of California’s Unfair Competition Law;
- 12 b. Whether Defendant’s conduct constituted a violation of the unlawful
13 prong of California’s Unfair Competition Law;
- 14 c. Whether Defendant’s conduct was immoral, unethical, unscrupulous, or
15 substantially injurious to consumers;
- 16 d. Whether the slight utility Defendant realized as a result of its conduct
17 outweighs the gravity of the harm the conduct caused to its victims;
- 18 e. Whether Defendant’s conduct violated public policy as declared by
19 specific constitutional, statutory, or regulatory provisions;
- 20 f. Whether the injury to consumers from Defendant’s practices is
21 substantial;
- 22 g. Whether the injury to consumers from Defendant’s practices is
23 outweighed by benefits to consumers or competition;
- 24 h. Whether Class members are entitled to restitution;
- 25 i. Whether Class members are entitled to an injunction and, if so, its terms;
26 and
- 27 j. Whether Class members are entitled to any further relief.

28 84. By purchasing DAS, all Class members were subjected to the same wrongful
conduct.

85. Plaintiff’s claims are typical of the Class’s claims because all Class members

1 were subjected to the same economic harm when they purchased DAS and suffered
2 economic injury.

3 86. Plaintiff will fairly and adequately protect the interests of the Class, has no
4 interests that are incompatible with the interests of the Class, and has retained counsel
5 competent and experienced in class litigation.

6 87. The Class is sufficiently numerous, as it includes thousands of individuals
7 who purchased DAS in the United States during the Class Period.

8 88. Class representation is superior to other options for the resolution of the
9 controversy. The relief sought for each Class member is small, as little as \$15 for some
10 Class members. Absent the availability of class action procedures, it would be infeasible
11 for Class members to redress the wrongs done to them.

12 89. Questions of law and fact common to the Class predominate over any
13 questions affecting only individual members.

14 **CAUSES OF ACTION**

15 **First Cause of Action**

16 **Unfair Competition Law, Unfair Prong**

17 **Cal. Bus. & Prof. Code §§ 17200 *et seq.***

18 90. In both causes of action, Plaintiff realleges and incorporates by reference each
19 and every allegation contained elsewhere in the Complaint, as if fully set forth herein.

20 91. The business practices and omissions of Defendants as alleged herein
21 constitute “unfair” business acts and practices in that Defendant’s conduct is immoral,
22 unethical, unscrupulous, and substantially injurious to consumers and the utility of its
23 conduct, if any, does not outweigh the gravity of the harm to Defendant’s victims.

24 92. Further, Defendant’s practices were unfair because they violated public policy
25 as declared by specific constitutional, statutory, or regulatory provisions, including those
26 embodied in the FDCA and the California Health and Safety Code.

27 93. Moreover, Defendant’s practices were unfair because the injury to consumers
28 from Defendant’s practices was substantial, not outweighed by benefits to consumers or

1 competition, and not one that consumers themselves could reasonably have avoided or
2 should be obligated to avoid.

3 **Second Cause of Action**

4 **Unfair Competition Law, Unlawful Prong**

5 **Cal. Bus. & Prof. Code §§ 17200 *et seq.***

6 94. Defendant has made and distributed, in interstate commerce and in this state,
7 products that were marketed with unlawful “drug claims” without obtaining FDA approval
8 to do so.

9 95. Defendant’s conduct violated the following portions of the Federal Food,
10 Drug, and Cosmetic Act (“FDCA”):

- 11 • **21 U.S.C. § 331(a)**, prohibiting the “introduction or delivery for introduction into
12 interstate commerce of any food, drug, device, tobacco product, or cosmetic that is
adulterated or misbranded”;
- 13 • **21 U.S.C. § 331(b)**, prohibiting the “adulteration or misbranding of any food, drug,
14 device, tobacco product, or cosmetic in interstate commerce”;
- 15 • **21 U.S.C. § 352(f)(1)**, requiring drugs to have adequate directions for use;
- 16 • **21 U.S.C. § 355(a)**, prohibiting the sale of unapproved new drugs; and

17 96. Defendants’ conduct also violates other provisions of California law including,
18 *inter alia*:

- 19 • **Cal. Health & Saf. Code § 110100 *et seq.***, which adopts all FDA regulations as state
20 regulations;
- 21 • **Cal. Health & Saf. Code § 111330**, “Any drug or device is misbranded if its labeling
is false or misleading in any particular.”;
- 22 • **Cal. Health & Saf. Code § 110398**, “It is unlawful for any person to advertise any
23 food, drug, device, or cosmetic that is adulterated or misbranded.”;
- 24 • **Cal. Health & Saf. Code § 111440**, “It is unlawful for any person to manufacture,
sell, deliver, hold, or offer for sale any drug or device that is misbranded.”;
- 25 • **Cal. Health & Saf. Code § 111445**, “It is unlawful for any person to misbrand any
26 drug or device.”;
- 27 • **Cal. Health & Saf. Code § 111450**, “It is unlawful for any person to receive in
28 commerce any drug or device that is misbranded or to deliver or proffer for delivery
any drug or device.”;

- 1 • **Cal. Health & Saf. Code § 111550**, prohibiting sale of new drug unless approved
2 under 21 U.S.C. § 355.

3 97. The challenged labeling and website statements made by Defendant thus
4 constitute violations of the FDCA and the Sherman Law and, as such, violated the
5 “unlawful” prong of the UCL.

6 98. Defendant employed unlawful marketing tactics to induce Plaintiff and
7 members of the Class to purchase products that were of lesser value and quality than
8 advertised and which were not safe and effective, or FDA approved.

9 99. The marketing and sale of DAS described herein constitute violations of the
10 FDCA and the Sherman Law and, as such, violated the “unlawful” prong of the UCL.

11 100. Had Plaintiff known that DAS was offered for sale in violation of California
12 and federal regulations, he would not have purchased it.

13 101. Had class members known that DAS was offered for sale in violation of
14 California and federal regulations, they would not have purchased it.

15 102. Plaintiff suffered injury in fact and lost money or property as a result of
16 Defendant’s unlawful conduct: he was denied the benefit of the bargain when he decided
17 to purchase DAS over competing products, which are legal, less expensive, and do not
18 make drug claims on their packaging and web properties.

19 103. Defendants’ unlawful acts allowed it to sell more units of DAS than it would
20 have otherwise, and at a higher price, and higher margin.

21 104. Had Plaintiff been aware of Defendant’s unlawful marketing tactics, he would
22 not have purchased DAS, and had Defendant not advertised DAS in an unlawful manner,
23 Plaintiff would have paid less for it.

24 **PRAYER FOR RELIEF**

25 WHEREFORE, Plaintiff, on behalf of himself, all others similarly situated, and the
26 general public, prays for judgment against Your Signature Supplements, LLC as follows:

- 27 A. An order confirming that this class action is properly maintainable as a class
28 action as defined above, appointing Plaintiff and his undersigned counsel to
represent the Class, and requiring YSS to bear the cost of class notice;

- 1 B. An award of restitution of \$10 million;
- 2 C. An order requiring YSS to conduct a corrective advertising campaign;
- 3 D. Declaratory relief that the conduct alleged herein is unlawful;
- 4 E. Pre-judgment, and post-judgment interest; and
- 5 F. An award of attorney fees and costs.

6 **NO JURY DEMAND**

7 Plaintiff makes no jury demand.

8 DATED: January 16, 2024

Respectfully Submitted,

9
